Re: Homing, Garden flat

Dear Redlets,

This is a big thank you on behalf of my parents for your part in letting out their garden flat.

Under the current financial climate and the fact that the flat was on the owners property it was proving a little difficult to rent out and due to lack of response there were a few agents involved. However of all the agents, the most viewings came from Redlets. Matthew kept in contact, updating us of responses and eventually albeit quite a challenge managed to find a very suitable tenant for a very unique property.

You dealt with all the paperwork efficiently and Matthew was very patient helping my busy parents complete all the necessary protocol correctly.

Thanks to your personable service I would certainly refer you to any colleagues, friends or clients who were looking to rent out their property or indeed looking to rent a property.

Kindest regards
